

FirstRound AI — Interview Scorecard

Recruiter artifact. Not shown to the candidate-facing interview UI.

Candidate: Muhammad Taha Farrukh

Role: Junior AI Engineer

Interview date: 2026-08-14

Duration: 480 seconds

Status: partial

Sample mode:

Decision

Overall score (1–5, evidence-gated): 2.0

Mean confidence: 0.91

Recommendation: no_hire

Reasoning: Poor JD fit, major technical gaps, or serious unsupported project claims.

Legacy internal score (0–100): 47 (NO_GO)

Competencies

Competency	Score	Confidence	Evidence quote	Reasoning
Technical competence	2	0.91	I recently have I recently have used only free bedding models since I did not have any funding. So I used hugging phase embedding models.	Poor JD fit, major technical gaps, or serious unsupported project claims.
Problem solving	—		None	Not scored: the transcript does not contain a usable candidate quote for this competency.
Communication	2	0.91	Yeah, so I had I had different openians with a teammate. I sat with him and heard his opinions and presented mine too then we came to a conclusion that suits both of us.	Poor JD fit, major technical gaps, or serious unsupported project claims.
Project understanding	2	0.91	I recently have I recently have used only free bedding models since I did not have any funding. So I used hugging phase embedding models.	Poor JD fit, major technical gaps, or serious unsupported project claims.
GitHub credibility	2	0.91	I recently have I recently have used only free bedding models since I did not have any funding. So I used hugging phase embedding models.	Poor JD fit, major technical gaps, or serious unsupported project claims.
JD / resume fit	—		None	Not scored: the transcript does not contain a usable candidate quote for this competency.

Strengths

- Phase 2 gap analysis shows strong skill matches with the JD.

Concerns

- q1: shallow or under-specified answers.
- q2: shallow or under-specified answers.
- q3: shallow or under-specified answers.

- q4: off-topic response.
- q5: shallow or under-specified answers.
- q6: shallow or under-specified answers.
- q7: shallow or under-specified answers.
- q8: shallow or under-specified answers.

Guardrail flags

- insufficient_evidence: No valid candidate-transcript quote of at least 12 characters.
- insufficient_evidence: No valid candidate-transcript quote of at least 12 characters.
- partial_interview: Only 9 of 12 approved questions were attempted.

GitHub grounding

GitHub-grounded questions asked: 3
Questions attempted: 9 of 12

Limitations

Competency scores are refused unless a candidate-transcript quote of at least 12 characters appears verbatim. This interview may be partial. LiveKit reconnection after a dropped call is not implemented; SQLite restores controller state only. This PDF is a recruiter artifact and is not shown on the candidate frontend.
